Description  Are all documentation for comprehensive review present? Are all the appropriate areas of the drug reciept filled in? Does the drug reciept reflect the actual evidence (or is discrepancy noted)? Were the daily negative controls performed? Were the daily balance sused for analysis documented? Were the daily balance check performed? Are all of the notes legible, organized and easy to understand? Do the notes contain a complete and accurate description of the evidence? Do the notes correspond to the actual testing performed? Are all the testing documents included with the file? Are the weights reported appropriately and are the proper units noted? Was the correct choice of sampling technique used? Has the reviewer checked the wieght calculations, if applicable? Does the preliminary testing criteria meet the la policy? Have the appropriate standards and negative controls been run and does the the testing agree with the certified reference standard, if confirmed? Has the control card been filled out accurately and completely? Are the reported conclusions scientifically supproted by the included data? Is the certificate correct? Do the data, drug analysis form, drug receipt and cetificate agree? Is the certificate signed and dated appropriately?	Lab#:
